

Update: Systemwide Curtailment Ended

The high temperatures that were forecasted across the region did not materialize to the extent projected. As a result, this reduced demand for natural gas electric generation. The voluntary curtailment that was issued for electric generation customers through coordination with the Balancing Authorities will end effective 10:00 PM PCT July 25, 2018.

Systemwide Curtailment Watch Continues

System conditions remain dynamic and are subject to change. Therefore, the systemwide curtailment watch for all noncore customers will remain in effect until further notice. All noncore customers should continue to monitor ENVOY at www.socalgasenvoy.com/ for further updates.

Please contact your Account Representative or the Gas Scheduling Helpline if you have any questions.
